3. CHAMPIONSHIP

The 30th Euro-African Spear Fishing Championship **CMAS**, will take place in two consecutive journeys of competition of five (5) hours each one, in the seafront of Cadiz City.

This geographic area will be divided in three (3) areas named " Competition areas" , Two (2) primary areas where competition will take place, and one (1) reserve area in case the weather conditions fails and make it unsafe or forbidden to operate in the primary areas . These areas will be named **North Competition area, South competition area and Reserve area.**

CMAS Technical Delegate will confirm the order of the competition areas no later than one hour before the start of the first competition journey.

CMAS Technical Delegate could, if he consider it necessary, to reduce the time of the competition journey versus planned time of competition, during the same journey or at start of the journey, for security reasons that may put under higher risks the competitors and support people, if weather conditions become harder or other motives, or if the sea authority order that.

Competition in one day will be valid if it time passed exceeds the two thirds of planned time for the competition in the day.

The championship will be valid when at least one valid competition in the day is completed.

The total suspension of a competition day is strictly a decision of CMAS technical delegate.

Competitors can only use the boat provided by the Organization Committee or own boats accepted on registration, that will be considered as the official boats. Another mean of transportation is forbidden during the time of competition.

Each national team will be provided with a set of three (3) official boats. Taking in account that boats could be of diverse size and power, in this event:

- Boats available, excluding competitors with own boat accepted by organizer, will be distributed in packs of three boats in an equitable and fair manner, and
- the boat packs will be allocated by draw.
- It is responsibility of the captain of each team the individual distribution of the boats to every of their athletes.

Team captains will be allowed to be in one of the three boats assigned to own athletes, and he / she will be free to change from one to another during the day of competition.

The official visit period without fishing and taking guns in the water are two weeks = 14 days + day before the championship starts = 15 days: since 21st august, 2015 to 4th September, 2015, both included)

- Commissaries of boats must follow the laws of competence and the orders of the judges and CMAS Technical Delegate.

In the event of a competitor become tired or another circumstances that make the athlete be retired from the competition, he can only leave the competition after telling that to the commissary in own boat and he has to communicate that to the CMAS Technical Delegate or the Director of competition.

During the competition, the official Main Boat will have flags in colors that means:

RED: Emergence/Urgency

WITHE: End of competence.

GREEN: Request for mechanical help.

After White flag and sound signal, all competitors must stop his fishing activity and go on board the boat. If he have to stay in water, he will stop the fishing activity and remove his mask of his face.

8. SCORING AND CLASSIFICATION

The calculation will be in two steps:

PHASE 1: Traditional Points (P.T.)

The amount of points obtained by the captures in groups, calculated as follows: one point per gram of each valid catch plus the established bonuses.

The max valid weight for the scoring of the catches of any group will be 12,5 Kg.(12.500 g)

Catches which weight is higher than 12.500 gr will score this maximum value plus the bonus, although total real weight will be consider in the event of existing an award to Biggest Catch.

BONUSES:

- Each valid catch will have a 500 points bonus (number of points = lower weight of the species groups)
- Each different specie will have a 500 points bonus. (number of points = lower weight of any groups)
- Additional bonus when the full quote of catches of a certain specie is completed, equal to 2 * lower weight of any group.

PHASE 2: Percent Punctuation (P.P. %)

The total punctuation of each athlete on the journey will be a percentage taking as reference the punctuation of the classified with the bigger score in each journey of the competition.

The athlete who obtain the best punctuation will be accredited with the 100% and the points of the next competitors will be calculated based on traditional points obtained by the athlete over the points of first classified. The percent values will be rounded to the third decimal.

Formula for calculation of the individual points:

$$\frac{\text{Punctuation of each athlete}}{\text{Punctuation of the first classified of the day.}} \times 100$$

The classification will be calculated in points, following the precedent rules.

Any athlete who presents his catches in a bag other than official provided by organization, with or without water, will be weighted the last of all bags and immediately removed bag and water.

PENALTIES:

- Any catch not reaching two thirds of the minimum weight of their category, will generate a penalty (negative points), equal to the minimum weight of the category/group.
- In the event of one catch exceeding the established limit of pieces, will be ignored in weighting and two higher weight catches of the specie will be removed.
- If a competitor exceeds in two or more catches the max number of catches of a specie, all the catches of the specie will be disqualified in the journey of competition
- Any catch that is not in the boat at the time of finish the journey of competition is not considered a valid piece.
